

safety management system will not be scheduled or conducted for a company's U.S. vessel unless the company first has undergone a safety management audit of the company's safety management system, and has received its Document of Compliance certificate.

(e) Requests for all safety management audits for a company and its U.S. vessel(s) must be communicated—

(1) By a responsible person directly to a recognized organization authorized by the U.S.

(2) By a responsible person within the time limits for an annual verification audit, described in § 96.330(f) of this part, and for an intermediate verification audit, described in § 96.340(e)(2) of this part. If he or she does not make a request for a safety management annual or verification audit for a valid Document of Compliance certificate issued to a company or a valid Safety Management Certificate issued to a vessel, this is cause for the Coast Guard to revoke the certificate as described in §§ 96.330 and 96.340 of this part.

(f) If a non-conformity with a safety management system is found during an audit, it must be reported in writing by the auditor:

(1) For a company's safety management system audit, to the company's owner; and

(2) For a vessel's safety management system audit, to the company's owner and vessel's Master.

§ 96.330 Document of Compliance certificate: what is it and when is it needed?

(a) You must hold a valid Document of Compliance certificate if you are the responsible person who, or company which, owns a U.S. vessel engaged on foreign voyages, carrying more than 12 passengers, or is a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore drilling unit of 500 gross tons or more.

(b) You may voluntarily hold a valid Document of Compliance certificate, if you are a responsible person who, or a company which, owns a U.S. vessel not included in paragraph (a) of this section.

(c) You will be issued a Document of Compliance certificate only after you

complete a satisfactory safety management audit as described in § 96.320 of this part.

(d) All U.S. and foreign vessels that carry more than 12 passengers or a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore drilling unit of 500 gross tons or more, must carry a valid copy of the company's Document of Compliance certificate onboard when on a foreign voyage.

(e) A valid Document of Compliance certificate covers the type of vessel(s) on which a company's safety management system initial safety management audit was based. The validity of the Document of Compliance certificate may be extended to cover additional types of vessels after a satisfactory safety management audit is completed on the company's safety management system which includes those additional vessel types.

(f) A Document of Compliance certificate is valid for 60 months. The company's safety management system must be verified annually by the Coast Guard or by an authorized organization acting on behalf of the U.S. through a safety management verification audit, within three months before or after the certificate's anniversary date.

(g) Only the Coast Guard may revoke a Document of Compliance certificate from a company which owns a U.S. vessel. The Document of Compliance certificate may be revoked if—

(1) The annual safety management audit and system verification required by paragraph (f) of this section is not completed by the responsible person; or

(2) Major non-conformities are found in the company's safety management system during a safety management audit or other related survey or inspection being completed by the Coast Guard or the recognized organization chosen by the company or responsible person.

(3) The Coast Guard or an authorized organization acting on its behalf is denied, or restricted access to, any vessel, record or personnel of the company, at any time necessary to evaluate the safety management system.

(h) When a company's valid Document of Compliance certificate is revoked by the Coast Guard, a satisfactory safety management audit must be completed before a new Document of Compliance certificate for the company's safety management system can be reissued.

§ 96.340 Safety Management Certificate: what is it and when is it needed?

(a) Your U.S. vessel engaged on a foreign voyage must hold a valid Safety Management Certificate if it carries more than 12 passengers, or if it is a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore drilling unit of 500 gross tons or more.

(b) Your U.S. vessel may voluntarily hold a valid Safety Management Certificate even if your vessel is not required to by paragraph (a) of this section.

(c) Your U.S. vessel may only be issued a Safety Management Certificate or have it renewed when your company holds a valid Document of Compliance certificate issued under § 96.330 of this part and the vessel has completed a satisfactory safety management audit of the vessel's safety management system set out in § 96.320 of this part.

(d) A copy of your vessel's valid Safety Management Certificate must be on board all U.S. and foreign vessels which carry more than 12 passengers, and must be on board a tanker, bulk freight vessel, freight vessel, or a self-propelled mobile offshore drilling unit of 500 gross tons or more, when engaged on foreign voyages or within U.S. waters.

(e) A Safety Management Certificate is valid for 60 months. The validity of the Safety Management Certificate is based on—

(1) A satisfactory initial safety management audit;

(2) A satisfactory intermediate verification audit requested by the vessel's responsible person, completed between the 24th and 36th month of the certificate's period of validity; and

(3) A vessel's company holding a valid Document of Compliance certificate. When a company's Document of Compliance certificate expires or is re-

voked, the Safety Management Certificate for the company-owned vessel(s) is invalid.

(f) Renewal of a Safety Management Certificate requires the completion of a satisfactory safety management system audit which meets all of the requirements of subpart B in this part. A renewal of a Safety Management Certificate cannot be started unless the company which owns the vessel holds a valid Document of Compliance certificate.

(g) Only the Coast Guard may revoke a Safety Management Certificate from a U.S. vessel. The Safety Management Certificate will be revoked if—

(1) The vessel's responsible person has not completed an intermediate safety management audit required by paragraph (e)(2) of this section; or

(2) Major non-conformities are found in the vessel's safety management system during a safety management audit or other related survey or inspection being completed by the Coast Guard or the recognized organization chosen by the vessel's responsible person.

[CGD 95-073, 62 FR 67506, Dec. 24, 1997, as amended by USCG-1999-5832, 64 FR 34712, June 29, 1999]

§ 96.350 Interim Document of Compliance certificate: what is it and when can it be used?

(a) An Interim Document of Compliance certificate may be issued to help set up a company's safety management system when—

(1) A company is newly set up or in transition from an existing company into a new company; or

(2) A new type of vessel is added to an existing safety management system and Document of Compliance certificate for a company.

(b) A responsible person for a company operating a U.S. vessel(s) that meets the requirements of paragraph (a) of this section, may send a request to a recognized organization authorized to act on behalf of the U.S. to receive an Interim Document of Compliance certificate that is valid for a period up to 12 months. To be issued the Interim Document of Compliance certificate the vessel's company must—

(1) Demonstrate to an auditor that the company has a safety management
